INVITED SESSION SUMMARY

Title of Session:

Classification, forecasting and decision support

Name, Title and Affiliation of Chair:

Wojciech Froelich, Institute of Computer Science, University of Silesia, Sosnowiec, Poland

Rafał Deja, Department of Computer Science, WSB University, Dabrowa Gornicza, Poland

Details of Session (including aim and scope):

The objective of the session is the presentation of original, unpublished results on recent advances in classification, forecasting and decision support systems. The suggested but not limited scope of the session includes the following topics:

- Classification – theory and applications
- Committees of classifiers
- Classification of biometric data
- Analysis of EEG and ERP data
- Time series forecasting, forecasting of sequences
- Deep learning
- Conflict resolution in classification and forecasting
- Dealing with missing and lacking data in classification and forecasting
- Feature selection for classification and forecasting
- Dealing with big data in classification and forecasting
- Soft computing techniques (fuzzy sets, rough sets and other)
- Neuro, fuzzy and neuro-fuzzy models, fuzzy cognitive maps
- Statistical models, statistical reasoning
- Decision support systems (DSS) – design and implementation
- DSS architectures and algorithms (TOPSIS, AHP, other), multi-criteria decision problems
- Medical DSS, medical diagnosis, medical guidelines, medical pathways
- Financial DSS, financial forecasting

IMPORTANT DATES:

Submission of papers: **1st April 2022**

Notification of acceptance:

Final paper publication files to be received by:

Email & Contact Details:
